

The Two-Minute School Progress Report

Date: _____

Child's Name: _____

Grade: _____

School: _____

Teacher's Name: _____

Dear Fellow Professional:

You and I are part of a team to help children grow. At Union Avenue Pediatrics, we try to monitor the development of the whole child. Your observations and feedback regarding certain parameters, which are listed on the back of this sheet, provide unique insight into traits such as performance, development, and self-image.

My patient - your student - is like a Ferrari. A Ferrari's true measure of performance is on the track, during a race. The only way to know if and how the Ferrari needs help is to analyze its performance during this time, when proper function is tested and needed.

The race track represents school, more specifically your classroom. I need your input so that I may be effective in helping this child to grow and succeed. Please understand how important you are to this process.

Please complete the form on the back on this sheet by checking (✓) the appropriate boxes, and add any comments you wish. When the form is complete, please return it to Union Avenue Pediatrics by mail, fax, or permit the parent to hand carry.

Thank you for your help.

The signatures below give permission for a mutual exchange of information between the parents, student, school staff, teachers and Union Avenue Pediatrics for the period of one year from the date of signatures.
